Discover the benefits

Aixia delivers cutting-edge backup solutions, with visionary and market-leading technology. Whether you need a direct high-speed data center connection (1 GBit/s), local backup with cloud sync, or a custom solution, we have flexible options that ensure enterprise-grade protection for your business.

Key features:

- Policy-driven automatic backups – no backup windows needed
- 30 day local storage on high-speed discs + long-term archive storage
- End-to-end encryption for maximum security
- Optional immutable backups for enhanced protection
- Customizable RPO to meet your business requirements
- Near-zero RTO with instant VM recovery
- Weekly automated recovery testing
- User-friendly management portal
- Dedicated service/support team + regular service evaluation

COHESITY
